MENTAL HEALTH

CUSTODIAL

INFRASTRUCTURE

## Features & Benefits

Anti-vandal and ligature resistant smoke detector covers. Robust and designed to protect smoke detectors from damage in custodial and secure healthcare installations

- Welded metal structure provides greater impact resistance
- Made from 1.5mm zinc coated steel
- Powder-coated semi-gloss smooth finish
- Shallow gradient to aid ligature resistance for sensitive areas.<sup>†</sup>
- Air-ventilation holes on all sides to aid in correct function of detector\*
- Removable front face for ease and speed to test and maintain detector
- Supplied with countersunk security fixings
- Available from stock

## Primary Applications

### Custodial

Custodial communal areas or any area where vandalism may occur.

### Mental Health

Patient rooms, hospital wards, communal areas or any area where vandalism may occur.

\*All detectors and covers should be tested in-situ and signed off by the appropriate responsible person. LYA take no responsibility for assuring individual detector models work as the manufacturer intended with the cover in place.

<sup>†</sup>This product is vandal and ligature resistant only. A risk assessment should be carried out to determine suitability for the application.
