

# Custodial – Prisons

## Specialist Lighting Solutions

British Manufacturer of Ministry of Justice Approved  
Specialist Anti-Ligature, High-Impact and  
Vandal-Resistant Luminaires for prisons

you win, we win.

# Cells

Effective lighting in custodial cells is crucial for safety and well-being. Light Years Ahead offers specialised cell lighting solutions that are designed to meet the stringent Ministry of Justice (MoJ) requirements of custodial environments; including safer cell approval on a number of products. Our anti-ligature fixtures reduce the risk of self-harm, while robust design ensures longevity and resistance to tampering. In the confined space of a cell, our lighting solutions provide the necessary illumination while prioritising security.

**Protectalux S Cornice**

**Guardian X Linear**

**Enduralux X Linear and  
Enduralux X Bulkhead**

**Protectalux X Linear Surface**

**Protectalux X Bulkhead**

# Communal Areas

Lighting in communal areas within custodial facilities plays a pivotal role in maintaining order and security. Light Years Ahead provides lighting solutions for communal spaces that enhance visibility and deter misconduct. Our products are designed to withstand the demands of high-traffic areas while ensuring the safety of prisoners and staff. We understand the need for a secure and well-lit communal environment.

**Como Anti-Ligature**

**Enduralux T Clear**

**Capri High Bay**

# Emergency

Emergency lighting is a critical component of custodial facilities. In times of crisis or power failure, reliable illumination is essential. Light Years Ahead provides emergency lighting solutions that ensure the safety of prisoners and staff. Our products come equipped with features such as battery backups and self-testing mechanisms, assuring optimal functionality when it's needed most.

Trust our expertise for peace of mind.

# Personnel Areas

Personnel areas within custodial facilities require task-specific lighting that supports staff in their duties. Light Years Ahead offers lighting solutions that are tailored to meet the unique needs of personnel working in these spaces. We provide fixtures that reduce glare, enhance visibility, and create a comfortable work environment. Whether it's for prison officers, administrative staff, maintenance teams or healthcare workers, our lighting products are designed to improve work conditions.

**Small Anti-Ligature Grille Cover**

**Medium Anti-Ligature Grille Cover**

**Large Anti-Ligature Grille Cover**

**Stainless finish also available**

## Re:LIGHT for the YEARS AHEAD

**In the event of product failure, the need to reduce costly maintenance or to make energy savings you may wish to consider a retrofit of your gear trays to re-purpose over replacing. There are many reasons to choose this option, not least the reduction in downtime for servicing and maintenance, time on site to complete the work and damage limitation to existing structures.**

In a world and at a time where resources are becoming more precious and amidst rising energy costs, retrofitting contributes to the circular economy and cleaner production, greater length of product service, reduction in product whole life costs, management of product end of life and recycling.

LYA retrofit gear trays and housings are designed to be accommodated in the current architecture and comply to latest legislation. They are made to meticulous standards and are built to last.
